In addition, the Insured shall in the event of malicious damage, theft, burglary, assault or other crime report the matter to the police as soon as possible.

Claims for indemnity

Claims for indemnity shall be submitted to the insurer as soon as possible after the loss occurred, and no later than six months from when the Insured became aware of the loss. The Insured is obliged to itemise his claim for indemnity, and on request to provide a list of insured property – damaged and undamaged – with details on the value of each object before and after the loss. The Insured is also obliged on request to substantiate his claim by furnishing the information that is available and by providing supporting vouchers, evidence, and other documents that the company needs in order to assess its liability and the amount of indemnity. Indemnity will not be paid for the costs in connection with submitting a claim for indemnity.

12. LOSS ASSESSMENT RULES

Loss or damage to property is assessed at the difference between the current value of the property immediately before and after the loss.

13. INDEMNITY RULES

If it is judged that the damaged property could be repaired, the Insured shall await instructions from the insurer before the repair is started. However, indemnity for damaged property can never be higher than the value of the property immediately before the occurrence of the loss. The insurer is always entitled to inspect the damaged property. Länsförsäkringar SAK AB is entitled to decide whether a damaged object shall be replaced or whether indemnity shall be paid in cash. If replacement is not carried out, the amount of indemnity may be reduced.
