ELMIA
One of the Biggest Trade Show Organisers in the Nordics.

For exhibitors who will have a stand outdoors.

ELMIAWOOD

2-4 JUNE 2022

Event Catalogue

elmia@elmia.com
Elmia Wood

Exhibiting in an outdoor area sets different demands to those for having a stand indoors. Even so, the basic principle is the same: to create an inviting stand that attracts visitors and activity.

A trade fair is an extremely effective meeting-place and an opportunity to influence others, network and do business. Your stand has a big role to play in achieving this.

When you exhibit in an outdoor area, a marquee is practically a must. Bear in mind that you can furnish it like an indoor stand and that you have the same good opportunities to create an impression and environment as usual.

At Elmia we are happy to help you design your stand. We are experts at creating an environment that effectively communicates your message. This improves your potential to attract the right visitors to your stand.
Exhibit.

When you have booked your stand space we are very willing to help you design your stand. We are experts at creating an environment that effectively communicates your message. This improves your potential to attract the right visitors to your stand.

Competition at the fair is tough, so make sure that visitors know you are here. With the right stand, a trade fair is one of the most powerful, cost-effective sales tools there is. We can help you create an environment that effectively gets your message across and improves your ability to attract the right visitors to your stand.

When we design your stand we analyse your purpose in exhibiting at the trade fair and how you want to profile your company. We then create a stand proposal in 3D and send you a complete quote. Once you’ve approved your stand proposal, we take care of the rest!

A lot of energy and preparation go into attending a trade show. We offer creative, effective solutions for everything from furnishing and communicating your message at the stand, to stand design and complete stand packages.

We help you ensure success at the show, leaving you to focus on your own preparations.

Application forms, terms & conditions.

Groundwork.

Since the fairgrounds are out in nature, your stand area may be uneven and contain woodland. This may mean that you have to order groundwork. Contact us if you need more information about your stand.

Demo.

Elmia offers both wood chips and gravel materials. This can be used as foundation on outdoor surfaces or for demonstration purposes.

Woodchips:
- Wood birch pulpwood M³ (SEK/M³ FUB)
  - Price: SEK 680
  - Art no.: 10 301

If you order flooring, it will be raised so that it’s level. Always bear in mind that steps may be needed as there is often a difference in levels.
Flooding and carpets.

FLOORING

The type of flooring you should use depends on what you will have in your tent. We usually recommend that you use wooden flooring that is raised, but if the floor needs to be completely level, modular flooring is the best option.

CARPET

We also recommend ordering a carpet if the flooring surface is inconsistent in quality. Flooring and a carpet create a cosier feel.

Contact Elmia for information on other colours.
Construction systems.

**WOOD**

The Wood stand system is our most basic system, based on 22 mm thick MDF panels. Most marquees are 2.1 m tall but the 2.5 m walls can be used in some marquees. You can also order a top strip to conceal the metal fittings between the walls. The walls can also be painted. Read more on the next page.

Choose from one of our seven standard colours or order an NCS shade. If the walls are painted, the price of restoration is included. The Wood system is suitable for nailing or screwing small items. Any necessary restoration costs for damage, such as bracket removal, leftover tape, nail holes etc., will be charged according to the price list. Restoration of walls painted by the exhibitor will also be charged.

---

**CARPENTRY WALL AND PAINTING**

If you have higher demands for quality and finish, we recommend ordering a carpentry wall, which can be built to your exact wishes. Painting in your choice of colour is included. Email us if you would like to order a carpentry wall.
Tables.

People find it easy to stop at a stand that has a bar table.

Tables to suit your needs. A bar table invites guests to stop for a quick, efficient chat, while a seating group invites visitors to stop for longer meetings.

Lighting.

Lighting also makes a big difference in a tent. We offer everything from spotlights to lighting rails that can be used in the bigger tents.

Contact expo@elmia.se for lighting recommendations.

---

**Lighting can be used to create contrast in your stand. Uniform lighting can look boring. Point lighting and targeted lights help to highlight messages and products in a stand.**

## Flowers and plants.

Flowers and greenery make a big difference at a stand. Our creative artists at Eva’s floristry service can help you to decorate your stand according to your wishes and requirements. We have a wide range of green plants, pot plants and cut flowers. The plants will be delivered straight to your stand.

Graphic production and exposure.

We shape your message. We can help you with the design of your message in your stand. We can help out with any wishes you may have regarding texts, logos and other graphics. You can order signs, hangings, ramp texts and logos for your stand from us.

To get as much as possible out of your participation at the trade fair, it is important that your stand is adapted to your company’s specific profile so that you stand out from the crowd.

We can help you with all kinds of graphic production and display material. We can develop a complete concept or provide help with individual products. Examples of products include balloons with your company profile, hangings, printed tent walls, printed tent gables and flags.

Price:
Varies depending on material, format and design. Please compile a list of your requirements and we will be happy to give you a quote.

Food at the stand.

The Jönköping company FC Gruppen take care of all restaurants and catering at Elmia. We are very happy about this.

FC Gruppen is a successful, innovative company that likes to use local produce. They offer great flexibility, which means you can order virtually any food to your stand.

If you would like to arrange a large dinner for your customers, we can of course help you with that as well. We are passionate about food, and always want to find the best solution for you.

Place your order at fcgruppen.se
Coffee.

A good cup of coffee could be the start of a lasting relationship with a new customer. You can brew it yourself, or order a machine. We have a wide range of options.

Contact us for a quote expo@elmia.se
Services.

Do you need extra personnel during the fair? Or do you prefer to avoid cleaning and stand construction? We have the staff you need.

**Cleaning**

Please compile a list of requirements and we will be happy to give you a quote.

It’s obviously important that your stand looks nice and fresh every day of the fair. We can clean your stand every evening after the fair has closed, leaving it fresh for you the next morning. You can also order cleaning in connection with stand construction.

**Stand personnel**

Please compile a list of requirements and we will be happy to give you a quote.

A stand host or hostess can make your work at the fair so much easier. All of our host personnel are highly qualified and can, e.g., provide interpretation services, demonstrate products and services, register visitors and more. They can, of course, also assist with more basic tasks such as handing out sales material, serving refreshments and so on.

**Security services**

Please compile a list of requirements and we’ll be happy to give you a quote.

Do you need extra security at your stand? You may have valuable products that need protecting, for example. We can offer professional security services via Securitas.

Transport and storage.

You can send items to Elmia Wood 2021. FOR ALL COMMISSIONS APPLY NSAB 2000.

**Delivery address**

It is essential that you clearly mark each consignment as indicated below:

- **Delivery address:** Elmia Wood
- Stand no., Company name
- Bratteborgs Gård
- SE-567 92 Vaggeryd, SWEDEN

Elmia AB cannot be held liable for items left unsupervised at stands. Elmia therefore recommends you have full insurance for trade fairs and exhibitions.

**Customs**

Goods from outside the EU must be declared in customs at the border with an EU country. Contact your forwarding agent for further information. Further information about Swedish customs regulations can be obtained from www.tullverket.se (the Swedish Customs website, which has pages in English). Order transport services in plenty of time before the fair, no later than 2 weeks before the fair.

**Moving-in route**

All exhibitor traffic through the exhibition area is one way, both during moving in and moving out. Exit the E4 highway at exit 90 which is signposted Vaggeryd Norra (Bondstorp – Travbana). Follow the signs.

**Transport management**

Goods/Incoming Transport will show you the way to your stand. Single consignments arriving by road courier are shown the access route for onward transport to the stand or the closest unloading point. Trailers are directed to a suitable unloading point depending on the stand location.

**Information and help during the fair**

The fair office is next to the large unloading bay next to the field areas. If you have any questions during the fair, please contact staff who will either be able to answer directly or put you in touch with the right person. At the trade fair there will also be a certain assortment of pens, tape, candy, coffee etc. They also offer a basic photocopying service.
